

HYDROLYZE

If you have a supply of wet feathers that you want to process into higher-value feed meal, the Hydrolyzer is the most advanced and easy-to-operate solution. It works by injecting both direct and indirect steam into a heavily compressed plug of feathers. This breaks down the cellular structure of the feathers, causing the fibers to disintegrate and dissolve.

Type	Capacity	A inlet	Dimension(L)	Dimension (W)	Dimension (H)	Power Feeder (kW)	Power Hydroliser (Kg)	Weight (Kg)
CFH-50	5	925x405	9250	3100	2600	37	18.5	15000
