

POULTRY VENT CUTTER

Model VC

**The Jarvis Model VC -
pneumatically powered vent removal tool
for all types of poultry and pork.**

- Ideal tool for high precision and extremely economical poultry vent removal, for any type or size of bird.
- Labor reduction - high speed and efficient vent and rosebud gland removal allow a reduction in line personnel.
- Increased yield - cut size is controlled by the vent gun, not the operator.
- Reduced contamination - fecal material is sucked away as the Model VC removes vents.
- Low maintenance, high reliability - a weekly greasing is all that's required.
- Low cost - the Model VC is economically priced with hardened surgical stainless blades for outstanding durability.
- Meets national and international requirements for safety and hygiene.
