

RC SOLE SPRAY DISINFECTION AND AIR DRYING EQUIPMENT

RC Sole Spray Disinfection and Air-Drying Equipment

Designed to automatically disinfect and dry the soles of footwear before personnel enter hygiene controlled production areas, helping to minimize the risk of cross-contamination and improve biosecurity.

- Automatic sole spraying system ensures complete coverage with disinfectant solution.
- Integrated air-drying system removes excess disinfectant, reducing slip hazards and improving user comfort
- Stainless steel construction provides excellent corrosion resistance and long service life.
- Hygienic design with smooth surfaces for easy cleaning and maintenance.
- Suitable for installation at the entrances to slaughterhouses, meat processing plants, food factories, and other hygiene-sensitive facilities
- Helps improve compliance with HACCP, GMP, and food safety standards.

Material	Stainless Steel SUS 304
Disinfection Method	Automatic Sole Spray
Drying Method	High-Velocity Air Drying
Operation	Automatic Sensor Activation
Power Supply	220–240 V, 1 Phase, 50/60 Hz
Application	Slaughterhouses, Meat Processing Plants, Food Processing Facilities
