

RISING CONVEYOR

- It is used for connection between two machines and can be customized according to the site. It can also be adjusted and moved at any time without affecting the stability of the device.
- Transfers a large number of products in a short time, greatly saving labor and space, improving work efficiency, and reducing production costs.
- Made of SUS304 stainless steel, with good quality and easy operation. The working area and the electrical area are completely separated and can be washed directly with water. It has excellent corrosion resistance.

Specifications

Size	2000 x 700 x 1700 mm
Power	0.75 kW
Voltage	220/380V
Weight	100 kg
